sensitile samples

o standard sample kit

- terrazzo: 6x6" grey, 1" thick
 - scintilla: 6x6" clear, 1" thick
- \$50 plus shipping

o terrazzo sample kit

- ten swatches encompassing each color in the terrazzo product line:
 - gray swatch 6x6x1"
 - all other colors 3x3x1"
- \$78 plus shipping

o terrazzo (lumina) sample

- one 6x6", 1-1/4" thick sample available in any std. color
- \$34 plus shipping

o scintilla tile sample kit

- seven swatches encompassing each color in the scintilla product line:
 - clear swatch 6x6x1"
 - all other colors 4x4x1/2"
- \$78 plus shipping

o scintilla panel sample kit

- scintilla: 4x4", 1-1/4" thick
 - scintilla: 4x4", 3/4" thick
 - mezza luna: 4x4", 3/4" thick
- \$72 plus shipping

o scintilla (lumina) sample

- one 6x6x1-1/4" sample, clear unless other std. color specified
- \$42 plus shipping

o jali sample kit

- jali cambia: 4x4" clear
 - jali cascata: 4x4" clear
 - jali mille: 4x4" clear
 - jali quadrato: 4x4" clear
 - jali triangolo: 4x4" clear
 - one jali 2x2" sample of each color in assorted patterns (six pieces), all jali samples 3/4" thick
- \$78 plus shipping

o build-your-own sample kit

- Sensitile can build a sample kit customized to meet your needs. **Please use the second page of this form to build your own kit.**

These swatches are just a sampling of the vast array of products we are capable of producing using the technologies and manufacturing expertise we have developed. Please feel free to contact us with regard to your particular project.

Every effort has been made to maintain consistent color, quality, thickness and terminal size between sample chips and full-sized tiles. However, our products are hand-crafted and therefore are subject to slight, naturally occurring variations. Our products are also affected to some degree by the type of light in which they are viewed, and batch in which they were made. Please keep this in mind when planning your project.

Sample orders require a lead time of five to ten days.

notes

Please include any additional information that might help us meet your needs.

Please fax or email us your completed sample order form.

payment

Contact Sensitile Systems to provide payment information. Please do not send credit card information via email.

build-your-own sample kit

Sensitile Systems is happy to create a customized sample kit. Choose your samples from the **build-your-own sample kit menu** on the following page, then please list the contents of your kit below. Contact us for pricing information.

Contact Sensitile for information on larger samples or prototypes.

Note: all scintilla, scintilla (lumina), mezza luna and jali samples will be coated with 1/8" clear cast acrylic laminate on both sides. All terrazzo samples will be sealed with urethane I. For prototypes of other laminates, please contact us.

Please fax or email us your completed build-your-own sample kit list with your sample order form.

build-your-own sample kit menu

terrazzo ·

a highly durable concrete embedded with light channels · ideal for a variety of horizontal and vertical surface applications, including flooring, wall coverings, countertops, sculptural and decorative surfaces and lighting

	THICKNESS	SIZE	COLOR	SURFACE FINISH ¹	PRICE
TILE & SLAB SAMPLES	1" thick	3x3"	gray · white · black · brown · red · orange · yellow · green · blue · violet	urethane I unless otherwise specified	\$7
	1" thick	6x6"	gray · white	urethane I unless otherwise specified	\$16
	1" thick	6x6"	black · brown	urethane I unless otherwise specified	\$17
	1" thick	6x6"	red · yellow · blue · violet	urethane I unless otherwise specified	\$19
	1" thick	6x6"	orange	urethane I unless otherwise specified	\$20
	1" thick	6x6"	green	urethane I unless otherwise specified	\$22

terrazzo (lumina) ·

combines the durability of concrete with a light source · applications include vertical and horizontal surfaces, flooring, wall coverings, countertops, pixilated signage and lighting fixtures

		THICKNESS	SIZE	COLOR	SURFACE FINISH ¹	PRICE
TILE & SLAB SAMPLES	1-1/4" thick	6X6"		white · other colors available as custom request	urethane I unless otherwise specified	\$34

scintilla ·

an acrylic material which employs the properties of total-internal reflection to channel and redirect light hitting its surface · applications include wall tiles and panels, countertops and lighting

	THICKNESS	SIZE	COLOR	SURFACE FINISH ²	PRICE
TILE SAMPLES	1/2" thick	4X4"	clear · emerald · gold · lime · red-orange · blue · amber	clear · matte	\$11
	1" thick	6X6"	clear · emerald · gold · lime · red-orange · blue · amber	clear · matte	\$28
PANEL SAMPLES	3/4" thick (1/2" core + lam.)	4x4"	clear · other colors available as custom request	----	\$16
	1-1/4" thick (1" core + lam.)	4x4"	clear · other colors available as custom request	----	\$19

scintilla (lumina) ·

an acrylic material which combines a surface with a light source · applications include room dividers, lighting, signage, wall coverings and furniture

	THICKNESS	SIZE	COLOR	PRICE
PANEL SAMPLES	1-1/4" thick (1" core + lam.)	6x6"	clear · other colors available as custom request	\$56

mezza luna ·

a variation on scintilla that can be trimmed by customer into any size or shape without damaging its properties; other scintilla products must be cut by Sensitile to maintain the products' interactivity · applications include horizontal and vertical surfaces, wall tiles and panels, countertops, furniture and lighting

	THICKNESS	SIZE	COLOR	PRICE
PANEL SAMPLE	3/4" (1/2" + lam.)	4X4"	clear · emerald · gold · lime · red-orange · blue · amber	\$14

jali ·

light-refractive polymer panels carved with intricate patterns allowing the panels to bend light and create intriguing shadows · applications include room dividers, structural walls, suspended floors, ceilings, tabletops, countertops and public art installations

	THICKNESS	SIZE	COLOR	PATTERN ³	PRICE
PANEL SAMPLE	3/4" (1/2" core + lam.)	4x4"	clear · emerald · gold · lime · red-orange · blue · amber	cambia · cascata · mille · quadrato · triangolo	\$14

¹All terrazzo samples are sealed with **urethane I**, a semi-gloss, unless otherwise specified. Other surface finish options include the penetrating finish and urethane II. The **penetrating** finish has the look and feel of typical stone and is the typical terrazzo finish. **Urethane II** is a glossy finish, ideal for heavy-duty or commercial applications. Expect an additional 5-10 day lead time for penetrating finish and urethane II. Prior to sealing, Sensitile must be informed of the product's application. For tiles and slabs used as countertops, bars or furniture, a sealant that passes applicable food regulations will be applied.

²**Clear** most responsive to light. **Matte** ideal for horizontal surfaces where scratch-resistance is an issue.

³**jali cambia** is composed of randomly sized cuts and slashes arranged sporadically to encourage light refraction from every height and angle. **jali cascata** resembles a waterfall through randomly spaced light deflectors of varying sizes and angles that are active from every orientation. **jali mille** contains many tiny slices and slashes arranged sporadically with varying lengths and depths, allowing it to sparkle from every orientation. **jali quadrato** has symmetrically stacked refractive acrylic squares with slight variations among rows. It resembles flattened honeycomb. **jali triangolo** is composed of aligned rows of light-reactive triangles, redirecting light and shadows in a consistent pattern.
