## notes

Please include any additional information that might help us meet your needs.

Please fax or email us your completed request for quotation.

# product menu

Contact Sensitile for information on custom colors, shapes, sizes and thicknesses.

**TERRAZZO** · a highly durable concrete embedded with light channels · ideal for a variety of horizontal and vertical surface applications, including flooring, wall coverings, countertops, sculptural and decorative surfaces, and lighting

	THICKNESS	SIZE	COLOR	SURFACE FINISH	EDGE DETAIL
TILES	1" thick	6x6"	gray · white · black · brown · red · orange · yellow · green · blue · violet	penetrating · urethane I · urethane II	contact Sensitile <sup>2</sup>
		8x8"	gray · white · black · brown · red · orange · yellow · green · blue · violet	penetrating · urethane I · urethane II	contact Sensitile <sup>2</sup>
	1-1/4" thick	12x12"	gray · white · black · brown · red · orange · yellow · green · blue · violet	penetrating · urethane I · urethane II	contact Sensitile <sup>2</sup>
		12x24"	gray · white · black · brown · red · orange · yellow · green · blue · violet	penetrating · urethane I · urethane II	contact Sensitile <sup>2</sup>
		24x24"	gray · white · black · brown · red · orange · yellow · green · blue · violet	penetrating · urethane I · urethane II	contact Sensitile <sup>2</sup>
SLABS	min. 1-1/4" thick up to 8' long	gray · white · black · brown · red · orange · yellow · green · blue · violet	penetrating · urethane I · urethane II	contact Sensitile <sup>2</sup>	

**TERRAZZO LUMINA** · combines the durability of concrete with a light source · applications include vertical and horizontal surfaces, flooring, wall coverings, countertops, pixilated signage and lighting fixtures

	THICKNESS	SIZE	COLOR	SURFACE FINISH <sup>1</sup>	EDGE DETAIL
TILES	1-1/4" thick	24X48"	gray · white · black · brown · red · orange · yellow · green · blue · violet	penetrating · urethane I · urethane II	contact Sensitile <sup>2</sup>
SLABS	min. 1-1/4" thick up to 8' long		gray · white · black · brown · red · orange · yellow · green · blue · violet	penetrating · urethane I · urethane II	contact Sensitile <sup>2</sup>

**SCINTILLA** · an acrylic material which employs the properties of total-internal reflection to channel and redirect light hitting its surface · applications include wall tiles and panels, countertops and lighting

	THICKNESS	SIZE	COLOR	SURFACE FINISH <sup>3</sup>	INTERACTIVE SIDES	LAMINATE	LAM. THICKNESS	LAM. SIDES	CURVATURE	FLEXIBILITY
TILES	1/2" thick	4X4"	clear · emerald · gold · lime · red-orange · blue · amber	clear · matte	----	----	----	----	----	----
		4X8"	clear · emerald · gold · lime · red-orange · blue · amber	clear · matte	----	----	----	----	----	----
		8X8"	clear · emerald · gold · lime · red-orange · blue · amber	clear · matte	----	----	----	----	----	----
	1" thick	6x6"	clear · emerald · gold · lime · red-orange · blue · amber	clear · matte	----	----	----	----	----	----
		12x6"	clear · emerald · gold · lime · red-orange · blue · amber	clear · matte	----	----	----	----	----	----
		12x12"	clear · emerald · gold · lime · red-orange · blue · amber	clear · matte	----	----	----	----	----	----
PANELS	1/2" to 1" core + lam.	up to 4x8'	clear · emerald · gold · lime · red-orange · blue · amber	----	one side · both	glass <sup>4</sup> · clear cast acrylic · abrasion resistant acrylic	1/8" · 3/16" · 1/4"	one · both	flat · curved <sup>5</sup>	rigid · flexible <sup>5</sup>

**SCINTILLA LUMINA** · an acrylic material which combines a surface with a light source · applications include room dividers, lighting, signage, wall coverings and furniture

	THICKNESS	SIZE	COLOR	INTERACTIVE SIDES	LAMINATE	LAM. THICKNESS	LAM. SIDES	CURVATURE	FLEXIBILITY
PANELS	1/2" to 1" core + lam.	up to 4x8'	clear · emerald · gold · lime · red-orange · blue · amber	one side · both	glass <sup>4</sup> · clear cast acrylic · abrasion resistant acrylic	1/8" · 3/16" · 1/4"	one · both	flat · curved <sup>5</sup>	rigid · flexible <sup>5</sup>

**MEZZA LUNA** · a variation on scintilla that can be trimmed by customer into any size or shape without damaging its properties; other scintilla products must be cut by Sensitile to maintain the products' interactivity · applications include horizontal and vertical surfaces, wall tiles and panels, countertops, furniture and lighting

	THICKNESS	SIZE	COLOR	INTERACTIVE SIDES	LAMINATE	LAM. THICKNESS	LAM. SIDES	CURVATURE	FLEXIBILITY
PANELS	1/2" + lam.	up to 4x8'	clear · emerald · gold · lime · red-orange · blue · amber	one side · both	glass <sup>4</sup> · clear cast acrylic · abrasion resistant acrylic	1/8" · 3/16" · 1/4"	one · both	flat · curved <sup>5</sup>	rigid · flexible <sup>5</sup>

**JALI** · light-refractive polymer panels carved with intricate patterns allowing the panels to bend light and create intriguing shadows · applications include room dividers, structural walls, suspended floors, ceilings, tabletops, countertops and public art installations

	THICKNESS	SIZE	COLOR	PATTERN <sup>6</sup>	INTERACTIVE SIDES	LAMINATE	LAM. THICKNESS	LAM. SIDES	CURVATURE	FLEXIBILITY
PANELS	1/2" core + lam.	4x8'	clear · emerald · gold · lime · red-orange · blue · amber	cambia · cascata · mille · quadrato · triangolo	one side · both	glass <sup>4</sup> · clear cast acrylic · abrasion resistant acrylic	1/8" · 3/16" · 1/4"	one · both	flat · curved <sup>5</sup>	rigid · flexible <sup>5</sup>

<sup>1</sup>Different finishes can be applied by Sensitile prior to shipment. The **Penetrating** finish has the look and feel of typical stone and is the typical Terrazzo finish. **Urethane I**, a semi-gloss, is featured on the Terrazzo tile in the standard sample pack. **Urethane II** is a glossy finish, ideal for heavy-duty or commercial applications. Prior to sealing, Sensitile must be informed of its application. For tiles and slabs used as countertops, bars or furniture, a sealant that passes applicable food regulations will be applied.

<sup>6</sup>**Jali cambia** is composed of randomly sized cuts and slashes arranged sporadically to encourage light refraction from every height and angle. **Jali cascata** resembles a waterfall through randomly spaced light deflectors of varying sizes and angles that are active from every orientation. **Jali mille** contains many tiny slices and slashes arranged sporadically with varying lengths and depths, allowing it to sparkle from every orientation. **Jali quadrato** has symmetrically stacked refractive acrylic squares with slight variations among rows. It resembles flattened honeycomb. **Jali triangolo** is composed of aligned rows of light-reactive triangles, redirecting light and shadows in a consistent pattern.

<sup>2</sup>Sensitile can create a variety of edge details—contact us.

<sup>3</sup>**Clear** most responsive to light.

**Matte** ideal for horizontal surfaces where scratch-resistance is an issue.

<sup>4</sup>Panels laminated with glass will receive one side glass and one side acrylic.

<sup>5</sup>Contact Sensitile for information on curved or flexible panels.
